When Danielle was younger she wanted to be a hair stylist. After she graduates she is going to attend Avalon School of

When asked where she sees herself in ten years Danielle replied, "I see myself having my own salon in a small town, married, and with a family."

Danielle said her favorite memory of high school was being part of the volleyball team and making memories and close friends. She said this year she finally experienced what it was like to play on a real team and to achieve goals because of working together.

When asked what she will miss most about high school she replied, "I think I will miss being at the home with my family and having that constant support that helps make life a little bit easier. I will also miss seeing everyone that I have spent 9 out of the 12 months with every year for the last 13 years."

When Danielle graduates she would like to be remembered as someone who tired her hardest in everything she put her mind to and someone who didn't try to be better than everyone else, just better than she was yesterday.
