

## Senior Spotlight: Heather Roe

by Julia Schmitt, sophomore

Heather Dawn Roe was born on September 26, 1996. Her parents are Chris and Cyndi Roe and Terri Martin. Heather's siblings are Richard Carey, Kyle Carey, Amanda Carey, Aleksys Vandyke, Crystal Roe, Branden Roe, Kayla Andersen, and Chelsea Andersen.

A major accomplishment that Heather has received is graduating BCT or Basic Combat Training. In her free time, Heather likes to do anything involving fun. She loves doing several summer outdoor activities like tubing, hiking, and 4-wheeling.

When she was younger she wanted to be a cop so she could arrest people and hoped that she would be on TV because she loved the show "Cops." She also wished at a young age

to be a NASCAR driver because she loved the thought of legally driving at crazy speeds.

Roe's plans after high school are to go to AIT or advanced individualized training. After completing AIT she would like to go to SDSU to go into nursing. In ten years Heather sees herself at a job that she loves getting paid generously for doing it and/or traveling around the world with the military.

Heather's favorite high school memories bucket is flowing over and some of the things that fill it are dust flying everywhere when Ephram [Albrecht] hit Stuart [Meyer] with a couch cushion, Maddi [Lammon] putting a frog down Kyle's [Stover] shirt, hitting Mr. Brace with a board trying to complete a shop project, and last, but not least, having pop spilled all over herself and Sidnee [Davis] in a small tossup.

The things that Heather will miss most about high school is having money, not having to pay bills, and being around people that she's known since pre-k. After she graduates she would like to be remembered as someone who enjoyed just being herself.
