When Taylor was younger she dreamed of being a model when she was older, now she realizes she loves taking the pictures rather than being photographed. She also joked saying, "I realized that I also love food too much to be a model." Taylor will be attending South Dakota State University to double major in Journalism and Mass Communications and Entrepreneurship. In ten years Taylor hopes to be a photographer for a magazine, hopefully a sports one.

When asked what her favorite memory from high school is Taylor replied, "One of my favorite high school memories would be my junior year; it was the day of the Press at SDSU every year. I was sick that day, so I wasn't able to go. The day after the convention Mrs. Frost found me in the hallway and told me that the Photography received a 100%. It probably doesn't mean much to most people, but to me that mean a lot. Last year I took most of the yearbook photos and to see that my hard work paid off, it made my year."

What she will miss most about high school will be her classmates. She also said, "I have seen them every day for the last 10 years and now we are about to graduate and leave this place forever, that means for most of us that this is the last time we will ever see each other again. I don't know if I am ready for that just yet, but I might as well enjoy it as it lasts." Taylor would like to be remembered as a person who treated each student with kindness, no matter how they treated me."
